#### Grease Monkey Wipes

Grease Monkey Wipes are a friendlier and cleaner solution than wiping filthy hands on that thick patch of grass after changing a flat or putting a fallen chain back on a cog. Formulated from a natural citrus base, these 8"x7" wipes are individually packaged in a 2.5"x4" pouch for easy carrying in a pocket or pack. Properly used, they'll remove grease, grime, and oil from your hands before it ends up on your bar tape or inside your gloves. Grease Monkey Wipes cost a buck each and are made in the U.S.A. #### Genuine Innovations Tire Repair Cassette and FlatStick

Got an empty bottle cage on your bike? Fill it with Genuine Innovations' Tire Repair Cassette (\$30) and never be stuck with a

and weighs 73g. Not a trouble-free ride. Made in [www.genuineinnovations.com](http://www.genuineinnovations.com)

flat again. This screw-top cassette contains a Microflate Nano inflator, two 15g threaded CO2 cartridges, a small patch kit, two tire levers, and a shop rag. Since there's space in the cassette (\$20), fiber and 2, 3, 4 This st

#### Teko Socks

Want a pair of comfortable socks that you can feel good about wearing? Teko's tekoPoly socks are made by wind power in North Carolina from 65% recycled post-industrial and 35% post-consumer waste (plastic bottles) without additional petroleum added. These eco-friendly socks contain non-toxic dyes and are free of allergens. They are really comfortable and are the first pair I reach for after wool. They've held up well to many washing and dryings, and they have a 100% satisfaction guarantee. Many sock lengths, cushion thicknesses, and performance features are available, as well as organic wool or cotton. Prices range from \$11-16. [www.teksocks.com](http://www.teksocks.com)
